A message from the chair

Dale Sims
PACRIM 2019 Congress Chair

The PACRIM Congress is an international geoscience event which showcases current case studies, techniques and developments in exploration and discovery of 'Pacific Rim' mineralisation systems.

Founded in 1987 the series has included Congress venues in Australia, Indonesia and China and is now to be held again in New Zealand with Auckland hosting the event 3-5 April 2019 at the

Cordis Hotel. The following document outlines the major themes of the program and the sponsorship and exhibition opportunities the Congress presents for your company and business. With exploration activity continuing to increase globally we are particularly pleased that PACRIM 2018 has garnered support from a truly international array of like-minded Professional Societies, Organisations and Institutes who are promoting the event to their widely dispersed memberships. This expanding group of co-sponsors, many of whom were with us in 2015 in Hong Kong, augers well for a widely diverse exploration audience in attendance.

This event will attract exploration geoscientists, researchers, educators and government professionals from around the world to update their knowledge, understanding and networks. This meeting can provide your business with a fantastic opportunity as either a sponsor or exhibitor to reach out to this range of professionals from the global industry which powers the world's growth. Please come and join us!
